Aprašymas

The MikroTik cAP LTE12 ax is a versatile wireless access point designed for performance in various environmental conditions. With an operational temperature range of -40°C to 50°C, it remains reliable in both hot and cold climates. This model features dual-band connectivity, allowing for data transfer rates of up to 1200 Mbps through Wi-Fi 6 capabilities. It supports various IEEE standards, ensuring compatibility with legacy devices while providing robust performance for modern applications.

Equipped with 1 GB of RAM and an 1800 MHz processor, this access point manages bandwidth and connectivity. The MikroTik cAP LTE12 ax also offers PoE for streamlined installation, reducing clutter and eliminating the need for additional power outlets. With a flash memory size of 128 MB, it provides space for firmware updates and configuration settings, making it a reliable choice for networking needs.

Product Description: MikroTik cAP LTE12 ax - radio access point - Wi-Fi 6 | Device Type: Radio access point | Form Factor: External | Processor: 1 x IPQ6010 - 1800 MHz | RAM: 1 GB | Flash Memory: 128 MB | Data Link Protocol: IEEE 802.11b, IEEE 802.11g, IEEE 802.11n, IEEE 802.11ax (Wi-Fi 6) | Frequency Band: 2.4 GHz, 5 GHz | Included Accessories: PoE injector, power adapter, mounting kit | Power Over Ethernet (PoE) Supported: PoE

Techninė specifikacija

Matmenys ir svoris	
Matmenys (I × P × A)	10,00cm × 10,00cm × 10,00cm
Svoris	1,00kg
