Aprašymas

USB 3.0 Ethernet cable, A/M to RJ45/M, 1 Gbps, active, black/grey, 1.5 m" from LogiLink

The LogiLink USB-CAT6-LAN adapter cable is the practical Ethernet solution for all USB-A devices without their own RJ45 port. Thanks to the chipset built into the USB plug, the cable replaces the USB-A to RJ45 adapters that were previously always required. With this cable, an Ethernet connection with a data transfer rate of up to 1 Gbit/s is immediately available without any additional drivers. Connect your router, modem or network switch to the USB-A port of your PC, laptop or tablet. Thanks to foil shielding (FTP), the data transfer is effectively protected against interference. The textile sheath of the cable has a pleasant feel and also protects the cable against abrasive wear. High-quality and robust metal plugs with bend protection ensure a particularly long service life. The USB-A connection is compatible with notebooks and tablets from popular manufacturers such as Lenovo, HP and Dell as well as with Windows, macOS and Android and is backwards compatible with USB 2.0. Note: The cable is not suitable for games consoles!

Techninė specifikacija

Features	
Cable length	1.5 m
Cable standard	Cat6
Cable shielding	S/FTP (S-STP)
Connector 2	RJ-45
Product colour	Black
Connector 1 gender	Male
Connector 2 gender	Male
Cable shape	Round
Connector 1 form factor	Straight
Connector 2 form factor	Straight
Connector contacts plating	Nickel
Ethernet interface type	Gigabit Ethernet
Weight & dimensions	
Weight	41 g
Packaging data	
Package type	Polybag
