Aprašymas

Discover Mangan 300 and choose a professional and stylish gameplay. It is a wired controller, designed with an emphasis on operational precision and matching the appearance of the controller to individual tastes. With these solutions, you will find it much easier to achieve subsequent victories and stand out among other players.

PLAY WITH PRECISION AND IN A GOOD STYLE

Discover Mangan 300 and choose a professional and stylish gameplay. It is a wired controller, designed with an emphasis on operational precision and matching the appearance of the controller to individual tastes. With these solutions, you will find it much easier to achieve subsequent victories and stand out among other players.

PERFECT JOYSTICKS

Perfect reproduction of joystick movements ensures that during the gameplay, you can fully utilise your own skills. It will not limit them to simplified controls characteristic of competitive controllers - with Mangan 300, tilting the stick in your chosen direction will execute a smooth and precise movement in a circle.

CUSTOMISE THE OPERATION TO YOUR NEEDS

You can adjust the operation of Mangan 300 to your individual needs. Whether you prefer the controller to remain still during gameplay or need to select one of the three available vibration strength modes for the controller. You can also adjust the sensitivity of the joystick, allowing you to customise, for example, the camera movement speed according to your preferences, even if the game itself does not allow it. Play by your own rules without compromising.

PRECISE TRIGGERS

Mangan 300 also features precise triggers. The force with which you press the triggers can affect, for example, the speed of the vehicles controlled in the game, making the gameplay even more responsive. Your victories are within reach, but they depend on quickly made decisions and... nimble fingers.

WIRED COMMUNICATION

The detachable cable with a USB Type-C connector, 2 meters long, allows for easy use of the Mangan 300 controller. It enables comfortable gaming even at a certain distance from the computer monitor or television screen. Play comfortably and the way you want.

REPLACEABLE FRONT PANEL

Break the routine of traditional controllers. Use the interchangeable front panel to customise the appearance of Mangan 300 to your style. At any time, change the colour cover (available in black, red, or white) to its alternative version, which you will find in the box.

GAMEPLAY AS YOU LIKE IT

This is a versatile controller that allows for comfortable gaming on a computer, Nintendo Switch® console, and mobile devices with Android on board. Choose your favourite platform and enjoy the convenience that Mangan 300 offers.

SECURE CASE.
A special case with a place for the PC adapter will allow you to safely store the equipment when you are not using the controller. It will also be useful during transport - Mangan 300 will enable comfortable gaming not only at home but also outside, for example, while traveling.

QUALITY

The pad is comfortable and will serve you for a long time. This is thanks to the illuminated buttons, which are made using Double Injection technology. This ensures that their imprints will not wear off even after years of use. The rubberised grips also contribute to the comfort of playing, preventing the controller from slipping - even during the most exciting gameplay.

Techninė specifikacija

Input device	
Device type	Gamepad
Gaming platforms supported	Android, Nintendo Switch, PC
Gaming control function buttons	D-pad, Home button, Mode button, Select button, Start button, Turbo button
Gaming control technology	Analogue / Digital
