Aprašymas

Powerful meets privacy! With this PanzerGlass® privacy screen protector made of 60% recycled glass, your personal info is safe from the prying eyes of people sitting next to you on the train, in the coffee shop or at the office. The specially designed privacy filter renders the content of your screen virtually invisible to everyone except you. It even has a smudge-free coating that reduces traces of fingerprints and grease, and it is 100% compatible with your screen’s ultrasonic fingerprint reader, so you can be sure that your phone unlocks smoothly every time.

And the screen protection? It’s outstanding! With 3x higher scratch resistance than our models for the S23 series, this screen protector keeps your phone screen safe from accidental bumps, crushing falls and other hazards of everyday life. Or to put it in more sustainable terms: It prolongs the lifetime of your phone, thereby postponing the need to produce new phones. This is one way of working toward a more sustainable future. Another is

to use less packaging: For this screen protector, we have managed to reduce the paper packaging by 33%* compared to previous models. This product comes in a recyclable FSC™-certified box.

The screen protector comes with an EasyAligner that makes installation a piece of cake (seriously!), and to make it even easier, we've included step-by-step instructions as well as a QR code for quick access to our online how-to video. And remember: Once the screen protection is applied, you'll never again fear the sight of your phone tumbling to the ground screen first. This may not happen, but if it does, you'll regret not having clicked "add to cart".

The screen protector is Ultra-Wide Fit, meaning it covers the front surface of your phone to provide superb screen protection and a complete screen view, while still leaving a little room around the edges for a PanzerGlass® case. If you want extra phone protection, combine the screen protector and case with a PanzerGlass® PicturePerfect or Hoops camera lens protector.

*Measured by third-party lab by comparing the mass of the new paper packaging introduced in 2023 with the mass of the previous paper packaging introduced in 2022 (CPRTC, report No. ZSA20231301-0016).
