Aprašymas

FREEWELL Wide-Angle Lens Kit for Osmo Pocket 4P

The Freewell 0.75x Wide Angle Lens & ND Filter Kit for the DJI Osmo Pocket 4P is a practical solution for those who want to capture a wider frame and gain greater control over exposure while recording. The kit includes a 0.75x wide-angle lens and three neutral density filters—ND8, ND32, and ND128—which allow you to adjust the amount of light reaching the sensor. This accessory is ideal for filming travel, landscapes, everyday vlogs, and creating creative shots in various lighting conditions.

A Wider Perspective in Every Shot

The 0.75x wide-angle lens lets you capture a larger portion of your surroundings without having to move the camera farther away from the scene. This is especially useful when filming expansive landscapes, urban architecture, or travel footage. The wider field of view also gives you greater freedom when creating vlogs and shooting close-ups.

Three ND filters for different lighting conditions

The included ND8, ND32, and ND128 filters reduce the amount of light entering the lens, making it easier to achieve proper exposure when filming in bright environments. The ND8 filter is ideal for moderate sunlight, the ND32 for filming in intense daylight, and the ND128 for very bright conditions. The filters also help maintain longer exposure times, making motion in your footage appear more natural.

Quick Filter Replacement

The Slide-On filter system allows you to attach ND filters directly to a wide-angle lens. This lets you quickly adjust the light reduction level without having to remove the lens itself. This solution makes fieldwork easier, especially when lighting conditions change during recording.

Included

- ND8 filter
- ND32 filter
- ND128 filter

Manufacturer	Freewell
Model	FW-OP4P-WAKIT
Compatibility	DJI Osmo Pocket 4P
Product Type	Wide-angle lens kit with ND filters
Wide-angle factor	0.75x
Filter Types	ND8, ND32, ND128
Filter Mounting Method	Slide-On, directly onto the wide-angle lens
Light Reduction	ND8 – 3 EV, ND32 – 5 EV, ND128 – 7 EV
