Aprašymas

PGYTech MagCam Smart Photo Grip (iPhone/Android) (Green)

The PGYTech MagCam Photo Smart Grip is an ergonomic mount that makes it easy to take photos and videos with your smartphone. Thanks to the magnetic mounting system, the phone can be mounted stably, gaining a firmer grip and more control when creating content. The compact design makes the accessory perfect for both travel and everyday use.

The built-in 3,000 mAh powerbank allows you to conveniently renew your device's energy not only wired (USB-C 10 W), but also wirelessly - via MagSafe charging (5 W) on smartphones that support this technology.

Ergonomic design

The grip is designed so that the phone lies in the hand like a traditional camera. The contoured grip improves comfort, making long photo shoots or video recordings much more comfortable. The MagSafe magnetic mounting panel allows you to attach your smartphone quickly and steadily, eliminating the risk of accidentally slipping the device.

Bluetooth remote control for full control

The kit comes with a magnetic, modular Bluetooth remote control that can be detached from the mount and used remotely - the phone remains firmly attached and you can freely control the shutter from up to 10 meters away. This practical solution is ideal for group shots, vlogs and dynamic shots in motion. The remote control is compatible with iOS systems.

Pateikta prekės informacija yra orientacinio pobūdžio. Techninės savybės, nuotraukos, aprašymai ir kaina gali keistis be išankstinio perspėjimo. Gamintojas ir pardavėjas neatsako už galimus duomenų neatitikimus ar tipografines klaidas. Prieš įsigyjant rekomenduojame pasitikrinti aktualią informaciją.

EDC cradle function

The product can also serve as an EDC stand. The magnetic design allows the phone to be positioned at a comfortable angle, which works well for video calls, content browsing or hands-free operation. The holder's slim design and light weight (145g) not only make it more comfortable to use, but also easy to store in a pocket or bag.

PGYTECH Photovideo Creative App

The mount works with the dedicated PGYTECH Photovideo Creative App, which allows you to take full advantage of its capabilities. Among other things, the app offers advanced photo and video modes, automatic cropping, filters, creative effects and the ability to share content directly to social media.

At this point, the app is available for iOS, while an Android version is under development - it's worth verifying the current status with the manufacturer.

Included

- PGYTech phone mount
- magnetic mounting panel
- Bluetooth remote control (modular, detachable)
- magnetic phone ring
- lanyard
- user manual
