Pagrindinės savybės

- ✓ Connect a device with 4-pole 3.5mm audio jack to a USB-A device
- ✓ Volume control buttons
- ✓ Mute buttons for disabling microphone and headphones separately
- ✓ Status LED
- ✓ Cable length: 0.5 meters

Aprašymas

The AC9360 USB-A External Sound Card is the solution for controlling your audio instantly. The sound card is suitable for connecting a headset with 4-pole 3.5mm audio jack. Easily adjust the volume with the volume up or down buttons. The separate microphone and headphones mute buttons allow you to mute these functions at any time.

Pateikta prekės informacija yra orientacinio pobūdžio. Techninės savybės, nuotraukos, aprašymai ir kaina gali keistis be išankstinio perspėjimo. Gamintojas ir pardavėjas neatsako už galimus duomenų neatitikimus ar tipografines klaidas. Prieš įsigyjant rekomenduojame pasitikrinti aktualią informaciją.

External sound card with 3.5mm audio jack

The AC9360 includes its own chipset and thus functions as a standalone external sound card. Connect the sound card to the USB-A port of your laptop/computer. Next, a headset with 4-pole 3.5mm jack can be connected to the AC9360. The cable length is 50 centimeters.

Volume control with mute buttons

The USB-A sound card has integrated volume control buttons for turning the volume up and down. The two mute buttons are dedicated to the microphone and headphones. They can be muted separately.

Convenient status LED

The status LED allows one to notice instantly if the microphone or headphones is enabled. The LED will blink blue when the sound card is active. Does the LED blink red? The microphone is muted. If the LED remains blue, the speaker is muted.

Techninė specifikacija

Audio	
Internal	No
Ports & interfaces	
Host interface	USB
Headphone outputs	1
Headphone connectivity	3.5 mm
Features	
Control type	Buttons
Number of buttons	4 buttons
LED indicators	Status
Cable length	0.5 m
