Aprašymas

Verbatim's 65W GaN Charger combines a USB-C® and USB-A port plus an integrated retractable USB-C cable into a compact, palm-sized design. Capable of charging up to 3 devices simultaneously, the USB-C port and cable support PD 3.0 (Power Delivery) at 65W while the USB-A port supports QC 3.0. Ideal for the office, home or travelling to power your laptop, tablet, smartphone, gaming devices, and more.

The retractable USB-C cable extends to over 80cm , reducing the need for additional cables when on the move and the output display shows the total amount of power output being used, whether that is from one or a combination of ports.
The GaN Charger can be used in multiple countries. The US prongs are foldable and it includes replaceable EU and UK plugs. The ultimate travel companion.

GaN Technology

Galliam Nitride (GaN) technology delivers high-powered, fast, efficient charging, and generates less heat. GaN chargers are smaller and lighter than traditional silicon-based chargers, making them ultra-portable and ideal for travel.

Safe and Reliable

The GaN charger is made with high-quality, flame-resistant materials and features four safety protection systems, including over-current protection, over-voltage protection, short circuit protection, and over-temperature protection to ensure your safety while charging.
