Pagrindinės savybės

- ✓ 4 TB 2.5" 5400 RPM
- ✓ Read speed: 85 MB/s
- ✓ Write speed: 75 MB/s
- ✓ Maximum data transfer rate: 5000 Mbit/s
- ✓ Micro-USB B 3.2 Gen 1 (3.1 Gen 1)
- ✓ Black

Aprašymas

Memory Case by Intenso – The convenient Hard Drive with very fast Data Transfer

The high-gloss Memory Case offers much disc space and ensures the highest data transmission rates with its USB 3.2 Gen 1x1 port. The hard drive is exceptionally suited for storing your private data and can be taken along anywhere due to its low weight.

Super Speed Transmission Rates

For all those, who want to have the fastest data transfer: the Memory Case can achieve 10 times higher data transmission rates with its USB 3.2 Gen 1x1 interface than hard drives with a USB 2.0 port. The hard drive reaches a reading speed of up to 85 MB per second and a writing speed of up to 75 MB per second.

USB 3.0 downwards compatible to USB 2.0

The full capacity of the Memory Case can only be exploited if connected to hardware capable of USB 3.2 Gen 1x1. But forward-looking users can connect the hard drive to a USB 2.0 interface for now, until they have upgraded to the USB 3.2 Gen 1x1 standard.

Data Protection in handy Format

Thank to its small format with the dimensions 127 x 78 x 14 mm the hard drive can be stowed away easily and therefore taken anywhere. The hard drive receives power through the delivered USB cable, so that no connection to an external power supply is necessary. Music, photos, videos and important documents can be saved simply at home or on the move. The Memory Case is preformatted with the FAT 32 data system. Therefore it is ready-to-use on the PC or Mac. It can also be easily connected to most television sets and receivers to record or play movies or programmes.

Data Protection with a Mirror Finish

The Memory Case does not only make a good impression as backup solution or additional storage device, but it also convinces visually. The black or white casing with high-gloss piano lacquer surface seems plain, but valuable. The blue LED light indicates active data transfer.

Quality from the Start

Intenso emphasises the highest quality of its products. Therefore a special procedure has been developed specifically for the external hard drives, with which they can be tested for complete functionality. Only when the devices satisfy the highest requirements they are approved by the quality management.

Techninė specifikacija

Hard drive	
HDD capacity	4 TB
HDD speed	5400 RPM
HDD size	2.5"
Read speed	85 MB/s
Write speed	75 MB/s
Storage drive buffer size	8 MB
File format system	FAT32
