Pagrindinės savybės

- ✓ 1x safety socket
- ✓ Socket with safety shutter
- ✓ IP20 for protection against contact with fingers or similar objects
- ✓ Mechanical time switching by rotary switch
- ✓ 7 presets selectable
- ✓ Safety plug

Aprašymas

Product information "Mechanical time switch with dusk sensor" from LogiLink

The mechanical timer with twilight sensor can be operated conveniently and easily with the aid of 7 different presets; complicated programming is not required. Once set, the power supply to the connected device is automatically activated or deactivated depending on the brightness and the option set. Decide for yourself: You can switch the device on and off completely manually by selecting the "ON" or "OFF" mode or you can use one of the twilight options. In the general twilight mode, the power outlet switches on as soon as it gets dark. In the time-based twilight modes, the socket outlet also switches on at dusk, but then switches off again after a certain period (2/4/6/8 hours). This allows you to decide for example when and how long you want your lighting to stay on in the evening.

Techninė specifikacija

Features	
Timer type	Daily timer
Product colour	White
Control type	Rotary
International Protection (IP) code	IP20
Power	
AC input voltage	230 V
AC input frequency	50 Hz
Maximum power	3680 W
Maximum current	16 A
Power consumption (standby)	1 W
Weight & dimensions	
Width	76 mm
Depth	103 mm
Height	56 mm
Weight	100 g
