support, the PowerLINE WiFi 1000 is perfect for connecting smart TVs, streaming players, and game consoles wirelessly.

Get Connected with Powerline

Broaden the reach of your wireless and wired network using your home electrical wiring. Connect the NETGEAR PowerLINE adapter to your modem or router, then simply plug-in the companion NETGEAR PowerLINE WiFi access point wherever you want WiFi.

Next Generation Powerline

Very fast speed—Up to 1000 Mbps.

Reliable Networking

Connect multiple adapters to expand your wired network reliably.

Latest Technology

Homeplug AV2 support for Gigabit speeds through your electrical outlets for improved coverage.

Plug-and-Play

Set up in minutes, no need to configure or install software.

Energy-saving

Automatically powers down when not in use.

Push-and-Secure

Encrypts Powerline network connections with the touch of a button.

Smart TVs and Players

Whether you're connecting your TV, Blu-ray™ or media player, you can avoid the hassle of running extra network wires. Connect your TV or media player to the Powerline and enjoy wired Internet instantly.

WiFi Where You Want It

Your home is filled with mobile devices — smartphones, tablets, laptops — and you want to have the freedom to use those devices when and where you want, while staying connected to the Internet. Simply add PowerLINE access points throughout your home to create strong, reliable WiFi connections where you need them most. And with the simplicity of PowerLINE, it's as easy as plugging into the nearest electrical outlet.

Reliable Home Networking

Building construction such as bricks, metal or distance can cause your home to work against your wireless network. With a powerline network you can stop worrying and start enjoying your reliable connected life.

Game Consoles

Avoid lag and interference by using a wired connection with Powerline throughout your home. Simply plug into an electrical outlet and conect your console to the Ethernet port to get fast, wired Internet, so you can stay connected.
