The superior Ultra High Speed HDMI standard of this Manhattan HDMI Cable makes you ready for the next generation of graphic challenges in audio/video, gaming, digital signage and other high-end applications.

Brilliant colors and contrast with Dynamic HDR and Dolby Vision™

This cable is officially licensed and certified to deliver images in brilliant 8K (7680 x 4320) at rapid 60 Hz or 4K UHD at blazing fast 120 Hz with Dynamic HDR and Dolby Vision™ for perfect contrast and colors.

Crystal-clear sound with Dolby Atmos®

Both Dolby Atmos and eARC support work together to deliver audio in unparalleled clarity and depth through as many as 32 channels.

Double shielding and gold-plated contacts

Its braided-fabric jacket makes this cable virtually tangle-free and extremely durable. The double shielding (aluminum foil and Mylar braid) and gold-plated contacts provide maximum signal integrity as well as crisp, clear signal transmissions with zero EMI interference.
