DarkFlash DS900G computer case (black)

DarkFlash DS900G is a Middle Tower chassis that offers extensive functionality for demanding users. It supports ATX, Micro-ATX and ITX format motherboards, and its interior accommodates graphics cards up to 425 mm in length and CPU coolers up to 170 mm in height. The interior space is designed for easy access to components and convenient expansion. The DS900G also offers full support for various cooling systems, so it can easily handle demanding gaming or work setups.

Full interior display

The curved side panel made of transparent tempered glass allows a full view of the components installed inside. The slightly rounded surface of the glass creates a panoramic effect that sets the case apart from standard models and allows the backlighting and mounting aesthetics to be fully

exposed.

Effective cooling

The case is designed for optimal air circulation. It allows the installation of up to 10 120 mm fans or their combination with 2 140 mm fans on the top panel. The design provides for 3 fans on the top, 3 on the side, 1 on the back and 3 on the bottom, allowing for a very efficient cooling system. In addition, up to 360 mm of water cooling can be installed on the top panel, and up to 240 mm on the side.

Optimized airflow and noise reduction

The DS900G chassis features densely spaced vents that not only improve airflow, but also effectively trap larger dust particles. The rear panel is equipped with a steel mesh that improves cooling efficiency by up to 15% while reducing noise levels by about 10%.

Magnetic dust filters

There are magnetically attached dust filters on the top and bottom of the case. As a result, they can be easily removed and cleaned without removing other components. This type of solution simplifies the daily maintenance of the computer and helps maintain optimal operating conditions for components.

Various expansion possibilities

The interior of the chassis was designed for users who want to keep the chassis aesthetically pleasing and tidy, while still having room for all the components they need. The DS900G offers 7 PCIe slots, which gives you the freedom to mount long graphics cards and additional expansion cards. The mounting space has been planned to ensure adequate airflow, room for cable routing and the ability to quickly access critical components.

Flexible disk mounting options

DarkFlash DS900G allows the installation of 2 HDDs in 3.5" format and 2 SSDs in 2.5" format. Depending on the user's needs, various configurations are possible, such as two HDDs and one SSD or one HDD and two SSDs. This allows each user to tailor the storage layout to their own preferences and the specifics of the set.

Convenient access to ports and buttons

The case offers a practical set of ports and buttons on the front panel. The user has one USB 3.0 and two USB 2.0 ports, as well as an HD Audio connector. The front also features Power, Reset and backlight control buttons.

Manufacturer	DarkFlash
Model	DS900G
Housing type	Middle Tower
Side panel	Tempered glass
Motherboard standard	ATX, Micro-ATX, ITX
Power supply standard	ATX
Slots for internal drives	2 × 3.5" (HDD) 2 × 2.5" (SSD)
Expansion card slots	7 PCIe slots
Max graphics card length	425 mm
Max CPU cooling height	170 mm
Max number of fans	Up to 10 120 mm fans In addition: 2 140 mm fans (top)
Fan mounting options	Top: 3 × 120 mm or 2 × 140 mm Side: 3 × 120 mm Rear: 1 × 120 mm Bottom: 3 × 120 mm
