Television: Connect your TV to a cable and satellite receiver to watch a wide range of channels in high quality (Full HD).

Playback devices: Full HD monitors, projectors and televisions.

Gold-plated contacts
The gold-plated plugs improve the conductivity, durability and corrosion resistance of the InLine HDMI cable. The risk of oxidation or corrosion is significantly reduced. This increases the long-term reliability of the connection, e.g. even in environments with higher humidity. Gold-plated contacts adapt better to the connections and are less susceptible to abrasion and damage when plugging and unplugging. In addition, the higher conductivity can improve signal transmission and therefore picture and sound quality, especially over longer cable runs.
