Pagrindinės savybės

- ✓ Available capacities:8 GB 16 GB 32 GB DC: 16, 32, 64 GB
- ✓ Available colors: black
- ✓ Fast DDR4 technology
- ✓ Capacity up to 64 GB in dual-channel mode
- ✓ 3600 MHz frequency
- ✓ Selected memory chips
- ✓ Lifetime warranty + tech support

Aprašymas

Goodram RIVAL DDR4 DEEP BLACK – more memory for DDR4 platforms

When a game, messenger, browser and background applications are running at the same time, your computer needs memory that can keep up with the load. Goodram RIVAL DDR4 DEEP BLACK is DDR4 RAM for gamers and PC enthusiasts who want to upgrade their current setup without replacing the entire platform.

The modules offer frequencies of up to 3600 MHz, CL18 latency, 1.35 V voltage and configurations of up to 64 GB in dual-channel mode. The black PCB and black heatsink fit well with modern, understated PC builds.

DDR4 is still going strong

Not every PC needs to move to a new platform right away. If your DDR4-based setup still performs well in games and everyday work, increasing RAM capacity can be one of the most practical upgrades.

It makes particular sense when you are gaming, using Discord, keeping a browser open, recording gameplay or working with several applications at the same time.

However, this upgrade will not help if the main limitation is a weak graphics card or processor. RAM will not replace these components, but it can give the system more room to work when memory headroom is running low.

Stable performance without unnecessary effects

Goodram RIVAL DDR4 DEEP BLACK operates at frequencies of up to 3600 MHz, with CL18 latency and 1.35 V voltage. These are DDR4 DIMM modules for desktop computers, based on selected memory chips.

For the user, this means a lot: more room for the system, games and applications running in the background.

Techninė specifikacija

Specifications	
Sandėlio grupė	DIMM (DDR IV) [+0][-0]
Features	
Internal memory	16 GB
Memory layout (modules x size)	1 x 16 GB
Internal memory type	DDR4
Memory data transfer rate	3600 MT/s
Component for	PC
Memory form factor	288-pin DIMM
ECC	No
Matmenys ir svoris	
Matmenys (I × P × A)	5,00cm × 1,00cm × 16,00cm
Svoris	0,04kg
