ExpertCenter E1 AiO features up to the latest Intel® Celeron® processer with up to 8 GB of memory, delivering efficient performance at a value price to meet every business needs. And, with its 15.6-inch, 10-point, capacitive touchscreen, E1 AiO will fit neatly on a retail counter or hospital check-in desk — or even hung on a wall, courtesy of its standard VESA mount2. In short, E1 AiO is ready to do business where you need business done.

Integrated UPS

Unwavering operation for business reliability

We know how important data is to your business, and sometimes unfortunate situations happen. That’s why, unlike many competing AiO models, we’ve built ExpertCenter E1 AiO with an uninterruptable power supply (UPS)1 to protect your data and tasks when mishaps cause power outages. This integrated UPS kicks in the instant that E1 AiO detects mains power is disconnected and displays a warning, giving you vital time to save your work — and extra peace of mind that you simply won’t get with other AiOs.

Fanless Design

Quieter, cleaner, and more cost-effective

ExpertCenter E1 AiO features a fanless design to operate silently with superb energy efficiency. Through its conductive-cooling system, E1 AiO eliminates fan noise and rapidly dissipates heat — making it a perfect fit for many specialist applications, such as healthcare, retail and more. This design also increases durability by reducing dust circulation, and minimizes running costs, assuring cost-efficient and longevity for any business venture adoption.
