Aprašymas

Position your USB 3.0 Micro devices near your desktop or laptop easily, with a thin, more flexible cable

Does your regular USB 3.0 cable lift or push against your external hard drive causing it to move around on your desk? Are you forced to arrange your desk according to how your cable decides to bend and rest?

The USB3AUB3MS features a slim USB wire construction that makes it easier to install your USB 3.0 devices and enables you to place them as needed throughout your workspace. Plus, the thin Micro USB connector molding makes this a great cable for mobile USB 3.0 devices too - it lets you plug into your device without having to take it out of its case for every charge and sync.

Position your USB 3.0 devices as needed

Organize your desk and your office to match your needs. This durable, lightweight cable is approximately half the thickness of a regular USB 3.0 cable giving you the freedom to place your devices as needed and with minimal clutter. The flexible, thin cable also reduces strain on the connection
