Pagrindinės savybės

- ✓ 60 W 2-way 2.0 channels
- ✓ Number of drivers: 2 50 - 20000 Hz
- ✓ Bluetooth 5.3
- ✓ Amplifier
- ✓ Bronze

Aprašymas

More power. More depth. More sound.
The GENESIS Arsen 502BT is for those who want an even bigger sound scale and higher listening quality from their speakers. The enlarged design and refined tuning allow for a sound that fills the space and makes a difference from the first bars. This is a model created for more demanding users, for whom bass depth, clarity and sound stability are important, even at very high volume levels.

Deeper bass, deeper experience
The enlarged enclosure of the Arsen 502BT translates directly into a better "low end" and a more spacious sound character. The bass is palpable, bouncy and well-controlled, while not dominating the rest of the range. The result is a fuller sound that works well in dynamic games, as well as when listening to music or watching movies with rich soundtracks.

Maximum clear sound
The balanced tuning of the Arsen 502BT speakers ensures clear, clean sound even when you crank up the volume. Treble remains clear, mids

remain natural, and bass retains control without distortion. That's comfortable listening without fatigue - whether you use the speakers for a moment or for hours.

Full bandwidth, full impressions
A wide frequency response from (as much as) 50 to 20,000 Hz combined with 60 watts of power brings out the best in the sound. A lower bass response means a more intense experience and a better sense of depth, while maintaining detail throughout the range. It's sound you won't just hear, but feel.

One speaker for all devices
Support for Bluetooth, RCA and optical connector standards makes it easy to fit the Arsen 502BT into your "ecosystem." Connect your computer, TV, console or smartphone exactly the way you want - no combinations and no limitations. Wireless freedom combines here with the versatility of classic connectors, offering convenience in any situation.

Style to fit your space
At GENESIS, we know how important the appearance of equipment is to many users. That's why the Arsen 502BT speakers are available in classic black and stylish brown, making them easy to blend into any workstation. The subdued, modern design accentuates the premium nature of the equipment and makes the speakers look just as good on a gaming desk as they do in the home living room or even in the office.
