Pagrindinės savybės

- ✓ GaN Technology: Gallium Nitride provides higher efficiency, lower heat generation and a compact charger size without compromising power.
- ✓ 20W Fast Charging: Maximum 20W output power enables lightning-fast charging of many phone models, including iPhones and Androids.
- ✓ Universal Compatibility: Supports PD, QC, SCP and other protocols, allowing you to charge devices of different brands and generations.
- ✓ Compact and lightweight design: The small housing means the charger fits in any pocket, bag or outlet – perfect for traveling.
- ✓ Safe and durable design: Surge and short circuit protection protects both the charger and your device.

Aprašymas

The Ugreen X512 20W GaN charger is a small but extremely efficient device that provides fast and safe charging of your smartphone. Thanks to the use of modern GaN (gallium nitride) technology, the charger works with greater efficiency, emitting less heat and offering more power in a compact housing. The maximum output power of 20W allows for fast charging of most modern phones - from iPhones, through Xiaomi, to Huawei and Samsung. The USB-C port supports popular fast charging standards, including PD3.0, QC4.0 +, FCP or SCP, which ensures universality and compatibility with many devices. The minimalist, white design will fit perfectly into any environment - at home, in the office or on the go. It is the perfect choice for people who are looking for a reliable charger for everyday use with maximum efficiency and modern technology.
