Aprašymas

CISCO SMALL BUSINESS SWITCHES WITH HIGH PERFORMANCE AT YOUR FINGERTIPS

Cisco Business 110 Series Unmanaged Switches are the ideal solution for small businesses looking to adapt to the rapidly changing digital world. These affordable switches provide reliable Gigabit Ethernet connectivity, ensuring smooth access to essential cloud applications for both remote and in-office teams. With easy installation and advanced features like QoS and cable diagnostics, businesses can effortlessly build an efficient network that supports their growth. This model, available in desktop and rack-mounted versions, combines performance with energy savings, representing a solid step towards the future in a dynamic business environment.

DISCOVER THE VERSATILITY OF CISCO BUSINESS 110 SERIES SWITCHES

Cisco Business 110 Series switches are the perfect solution for small businesses seeking an efficient and easy-to-use networking system. With plug-and-play functionality, these devices are ready to work right out of the box, automatically adjusting the speed and mode of the ports. They offer flexibility in configuration, available in 5-, 8-, 16-, and 24-port versions, allowing for adaptation to various office needs. Silent operation ensures they blend seamlessly into any environment. Gigabit Ethernet performance enables fast transfer of large files and ensures smooth operation of cloud and video applications. Additionally, the use of energy-efficient solutions helps reduce energy costs, making them environmentally friendly.

BOOST YOUR NETWORK PERFORMANCE WITH CISCO BUSINESS 110 SWITCHES

Cisco Business 110 Series switches are the ideal solution for small businesses looking to simplify their networking operations. With Power over Ethernet (PoE) functionality, you can easily connect and power devices such as IP phones or access points using a single Ethernet cable. This not only reduces costs but also accelerates the deployment of modern communication technologies. Built-in advanced technologies, such as intelligent service prioritization and cable diagnostics, ensure smooth application performance. With the reliability these switches offer, users can enjoy network stability, and the limited lifetime hardware warranty further enhances peace of mind.
