Aprašymas

UNMATCHED PERFORMANCE WITH LAYER 3 ETHERLIGHTING™ TECHNOLOGY

The Ubiquiti Switch Pro HD 24 is engineered for professional-grade networking, featuring advanced Layer 3 Etherlighting™ technology. With a robust switching capacity of 230 Gbps and a non-blocking throughput of 115 Gbps, this switch ensures seamless data flow across your network. It is equipped with 22 2.5 GbE ports, 2 10 GbE ports, and 4 10G SFP+ ports, providing versatile connectivity options for various devices. This high-performance switch is designed to handle demanding applications, making it ideal for both enterprise and professional AV environments.

COMPREHENSIVE MANAGEMENT AND SECURITY FEATURES

This switch offers an extensive array of management features, including support for up to 1,000 VLANs and advanced IGMP configuration, ensuring efficient multicast traffic management. The Ubiquiti Switch Pro HD 24 also includes robust security measures such as MAC-based ACLs, DHCP snooping, and 802.1X control, which protect your network from unauthorized access. With features like port mirroring and loop protection, network administrators can easily monitor and maintain optimal performance while safeguarding against potential disruptions.

DESIGNED FOR FLEXIBILITY AND SCALABILITY

The Ubiquiti Switch Pro HD 24 is designed with flexibility in mind, featuring a rack-mountable form factor that fits seamlessly into various setups. Its dimensions of 442 x 285 x 44 mm make it suitable for standard 1U racks, while the supported rack depth of 400 to 1200 mm allows for versatile installation options. With a weight of just 4.2 kg (9.2 lb) without mounting brackets, this switch is easy to handle and install. The inclusion of a 1.3" touchscreen LCM display enhances user interaction, providing real-time monitoring and management capabilities.

ROBUST BUILD QUALITY AND ENERGY EFFICIENCY

Constructed from durable SGCC steel, the Ubiquiti Switch Pro HD 24 is built to withstand the rigors of professional environments. It operates efficiently with a maximum power consumption of 60W and supports a wide voltage range of 100–240V AC, making it suitable for various power setups. The switch is also NDAA compliant and certified by CE, FCC, and IC, ensuring it meets stringent regulatory standards. With an ambient
