Pagrindinės savybės

- ✓ Sleek rounded edges and linear grooves that increase cooling efficiency
- ✓ Unique light guide creates a striking double-beam RGB impact
- ✓ Supports ASUS Aura Sync/ Gigabyte RGB Fusion/ MSI Mystic Light/
- ✓ ASRock Polychrome Sync software synchronization & management
- ✓ Only 42.5mm in height, offering greater build flexibility
- ✓ On-die ECC to protect data integrity and PMIC to manage power requirements
- ✓ Programmed with Intel XMP 3.0 and AMD EXPO profiles, tested OC speed can be reached by BIOS adjustments, depending on motherboard and CPU capability and compatibility
- ✓ Rigorous test procedure to ensure highest quality and reliability
- ✓ QVL approved and compatible with mainstream motherboards

Aprašymas

Crafted for Gamers and Creative Professionals

Turbocharge your performance with the URBANE V RGB, delivering DDR5 lightning-fast speeds up to 8400MT/s.
Ultra-low latencies ensure instant response times for smooth and reliable performance.

Stylish Design and Impeccable Cooling

Pateikta prekės informacija yra orientacinio pobūdžio. Techninės savybės, nuotraukos, aprašymai ir kaina gali keistis be išankstinio perspėjimo. Gamintojas ir pardavėjas neatsako už galimus duomenų neatitikimus ar tipografines klaidas. Prieš įsigyjant rekomenduojame pasitikrinti aktualią informaciją.

The URBANE V RGB aluminum heatsink features sleek rounded edges with linear grooves, significantly improving heat dissipation. This design enhances cooling efficiency, keeping your system stable.

Stunning RGB Illumination

Unleash your full aesthetic potential with a unique light guide strip that delivers a bold, double-beam RGB glow, giving your setup a dynamic and commanding presence.

Space-saving Design

With a height of just 42.5mm, the URBANE V RGB offers flexibility for assembly, making it ideal for smaller to compact builds and systems with larger CPU cooling components.

Exceptional Stability with 10-layer PCB

Engineered with the highest quality, the 10-layer PCB design provides reliability and enhanced signal integrity to ensure reliable performance for the most demanding applications.

Precision Temperature Monitoring

The URBANE V RGB RAM is equipped with a built-in thermal sensor for precise real-time monitoring of memory temperature. This advanced feature guarantees that your system functions efficiently, preventing overheating and maintaining optimal performance during extended gaming or demanding tasks.

Compatible with Intel & AMD Platforms
Reliable Performance, Worry-free Upgrades

At KLEVV, we understand that choosing the right memory can sometimes be challenging. That's why we've optimized our products for both platforms, making it easier for consumers to identify the memory that best suits their system. Check the package before purchase to ensure optimal compatibility with your respective platform.

Effortless Overclocking with Intel® XMP 3.0 & AMD EXPO™ Support

The URBANE V RGB RAM supports Intel® XMP 3.0 and AMD EXPO™, allowing for simple, one-step overclocking. Tweak your system to higher speeds with preset profiles, ensuring smooth gameplay and enhanced performance without the hassle of manual tuning.

Upgrade Confidence: QVL Approved

The URBANE V RGB RAM is QVL-tested to ensure compatibility across mainstream motherboards. This rigorous testing process guarantees seamless integration and reliable performance, enabling you to build your system with confidence.

Techninė specifikacija

Specifications	
Sandėlio grupė	PC Components|Memory|DDR5 [+47][-125]
Features	
Internal memory	32 GB
Memory layout (modules x size)	2 x 16 GB

Internal memory type	DDR5
Memory data transfer rate	6000 MT/s
Component for	PC
Memory form factor	288-pin DIMM
On-Die ECC	Yes
Memory voltage	1.4 V
Intel Extreme Memory Profile (XMP)	Yes
Intel Extreme Memory Profile (XMP) version	3
AMD Extended Profiles for Overclocking (EXPO)	Yes
Product colour	Black
Cooling type	Heatsink
Backlight	Yes
Backlight colour	RGB
Weight & dimensions	
Width	42.5 mm
Depth	138.9 mm
Height	8.2 mm
Matmenys ir svoris	
Svoris	0,20kg
