Aprašymas

Individual tone control: The integrated 3-band equalizer enables the targeted adjustment of treble, mid-range and bass for optimum sound balance.
Additional sound optimization: With loudness function and equalizer switch for more dynamics and present reproduction at low volumes.
Versatile connection options: Two line INs and separate outputs for headphones and line OUT offer flexible application options.
Compact, robust and USB-powered: Aluminum housing and power supply via micro USB make the amplifier mobile and suitable for use anywhere.
Ideal for demanding setups: Supports headphones with 16 to 600 ohms and delivers a stable stereo signal with 90 dB channel separation.

The InLine® AmpEQ is a compact hi-fi headphone amplifier with integrated 3-band equalizer for individual sound control. Thanks to treble, mid-range and bass controls, audio sources can be specifically adjusted - ideal for professional sound assessments or demanding applications at the workplace.
The AmpEQ also offers a loudness function that provides more fullness of sound at low levels. The equalizer can be activated or deactivated with a switch to quickly switch between unprocessed and adjusted sound. The signal processing is analog, which preserves a natural sound character.
Two 3.5 mm line inputs allow you to connect various sources. Separate outputs for headphones (equalizer & amplification) and an additional line OUT (equalizer signal) enable flexible application scenarios - e.g. as an intermediate stage in the audio setup or as a tone control in the monitoring area. Balance and volume controls round off the features.
The amplifier supports headphones with impedances from 16 to 600 ohms and offers stereo crosstalk of 90 dB. Power is conveniently supplied via micro USB (5V), e.g. via a USB power supply unit or a PC. The compact metal housing ensures stability in daily use. The gold-plated connections

ensure good signal quality over the long term.

Equalizer frequency ranges: Treble 3KHz-20KHz, Mid 200Hz-4KHz, Bass 20Hz-250Hz
Other controls:volume, balance (L/R)
stereo crosstalk:90 dB
Outputs:3.5mm headphones, 3.5mm line OUT
Inputs:2x 3.5mm line IN
Power supply:5V/0.5A via micro USB
Material: Metal housing with aluminum elements
Dimensions:11.6 x 3.8 x 4.8 cm

Techninė specifikacija

Audio	
Adjustable volume	Yes
Treble adjustment	Yes
Ports & interfaces	
Headphone connectivity	3.5mm
Line-out	Yes
Line-in	Yes
Audio (L/R) in	2
USB 2.0 ports quantity	1
Technical details	
Product colour	Silver
Package volume	1800 cm³
Weight & dimensions	
Width	38 mm
Depth	116 mm
Height	48 mm
Weight	290 g
Package weight	399 g
Package depth	172 mm
Package width	142 mm
Package height	73 mm
