Aprašymas

Efficient 2-in-1 design for simultaneous charging of two USB-C devices
Up to 25W charging power – ideal for smaller electronic devices
Space-saving solution to reduce cable clutter in the work environment
Reliable power supply via only one USB-A port
Ideal for IT rollouts, service teams and workplace solutions

The **InLine® USB 2in1 Y charging cable**has been specially designed for professional use to enable the parallel power supply of two USB-C end devices via a single USB-A power source. With up to 25 watts of charging power (split between both outputs), this cable is ideal for smaller devices such as power banks, headphones, scanners or smart gadgets - whether in the office, in the workshop or at trade fairs.Especially in environments where efficient use of resources is required, the Y-cable not only saves space, but also ensures tidy cable management thanks to its sophisticated design. Whether in the context of IT rollouts or in daily use by technical teams, this cable is a practical, robust and versatile solution.

Connection A: 1x USB-A plug
Connection B: 2x USB-C plug
Fast charging function: Not supported
Application range: Compatible with small USB-C end devices
