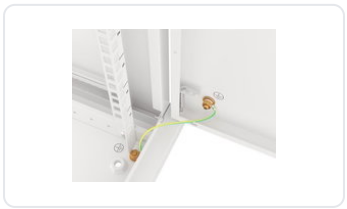
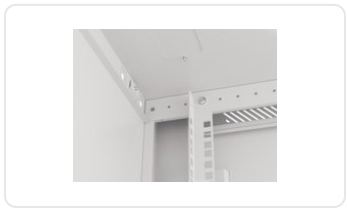
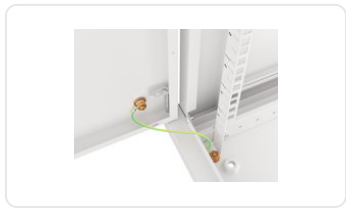
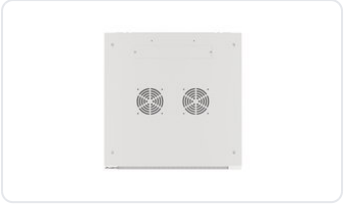
Pagrindinės savybės

- ✓ 12U Wall mounted rack 60 kg
- ✓ Grey
- ✓ Metal









Aprašymas

Easy installation

With the simple and easy installation of our server racks, you save time and effort, allowing you to focus on more important tasks. Regardless of your level of experience, you can quickly get your data center or server network up and running.
Our racks come with clear paper installation instructions that guide you step-by-step through the process. In addition, taking care of the highest quality of use, we also provide detailed video instructions that are available online. This ensures that you have a visual guide to help you understand and complete each step.

Solid workmanship

Reliability and durability are key features of Lanberg server racks. Our rack cabinets are designed to provide rugged construction and reliability depending on the application. Made from high quality cold-rolled steel, our server racks offer not only great durability, but also the highest precision manufacturing.
Each Lanberg rack features a robust design that is the result of an advanced manufacturing process that combines innovative solutions and careful workmanship. We take care of every detail, ensuring excellent protection of cartons and high-quality painting with a matte surface, which emphasizes the professionalism of our products

Flat Pack

Our Lanberg server racks are packaged in "Flat Pack" self-assembly format. As a result, you can easily transport our racks in vehicles with limited cargo space, as well as have full control over the assembly process.
Our years of experience in the market have given us an excellent understanding of how to protect components in cardboard boxes to minimize the risk of damage during transportation. We use high-quality protective materials and careful packaging to ensure that your server racks arrive to you in perfect condition – immediately ready for installation.

Efficient cooling

The WF01 series of Lanberg server cabinets is also dedicated to those who are looking for solutions for use in demanding temperature conditions. Our cabinets allow you to achieve optimum performance without sacrificing functionality, aesthetics and security.
With two vents in the ceiling panel, we provide excellent airflow and effective cooling. We offer users even greater control over the temperature inside the cabinet, which is key to maintaining optimal operating conditions for equipment.

Techninė specifikacija
