## Aprašymas

Highly effective 2-way landscape privacy filter protects the screen from scratches and damage and limits the field of view to+/- 30°. I.e. from an angle of approx. 30° the display appears black, so that your privacy and sensitive data are protected from unwanted side views, compliance with the General Data Protection Regulation (GDPR) is supported.

Thanks to the Air Adsorption Technology, the Privacy Safe privacy filter can be attached and removed quickly and easily - without any adhesive or annoying fastening clips. Laptop closing is also possible without removal.

The glossy side provides a clearer view of the screen and maximum colour brilliance, especially indoors and in medium to dark light conditions.

Unrestricted touch sensitivity: The Privacy Safe privacy filter has no disruptive effect on the touch and scroll characteristics of the display. The display can be used without restriction - as if no privacy filter was in place. Pens/pencils are also supported [model-dependent].

Camera function is secured by a universal cut-out. Camera slider function is retained.

Incl. practical protective cover made of natural felt for safe storage and protected transport.

## Techninė specifikacija

| | |
|---|---|
