- ✓ Water immersion to 30m depth*
- ✓ Extreme temperatures from -25°C to 150 °C
- ✓ Technical Hotline Support
- ✓ 2 Year Limited Warranty

Aprašymas

The Verbatim ToughMAX USB 2.0 Drive is made with KyronMAX™compounds, a metal replacement thermoplastic material which is able to withstand seriously punishing conditions and has been used in the most demanding of applications from fighter jets to mountain bikes. KyronMAX™ compounds are extremely light and tough, making it a wonderful USB enclosure material that will resist virtually everything and keep your data safe from any physical damage.

KyronMAX™ compounds are manufactured by Piper Plastics which, like Verbatim, is a group company of Mitsubishi Chemical. This incredible material has been adopted by many industries including aerospace, medical, industrial and automotive, and has a tensile strength to weight ratio that is higher than steel.

Techninė specifikacija

Performance	
Capacity	16 GB
Device interface	USB Type-A
