A sophisticated hand flatterer: the surface of the protective cover in silky rubber-oil finish looks and feels good

Anti-stick surface

Non-sticky: special rubber oil surface prevents crumbs from sticking to the phone cover and allows the phone to be removed from trouser pockets, jacket pockets and handbags in one go

Protected side buttons

A clean sweep: The mobile phone cover also covers the side buttons - this protects against dust and enables a perfect pressure point

Custom-fit

Tailor-made mobile phone case: protects what needs to be protected and leaves free what should remain free, e.g. loudspeaker and charging socket

Scratch-resistant

Scratch-resistant back cover: rubber-oil finish exterior is resistant to keys, pens and coins in trouser, hand and jacket pockets

Camera protection through raised edges

Simply lay it down carefree: the raised edges of the phone case provide protection for the protruding camera lenses without compromising the quality of the photos

Edge protection for the display

Additional protection for the mobile phone display: The mobile phone cover has a raised edge all around - so the touchscreen is better protected

Soft inside lining
Softly bedded: soft inner lining to protect the sensitive back of the smartphone

Plastic-free

Packaging with a clear conscience: our packaging is 100% plastic-free, enabling us to reduce plastic waste and increase its recyclability

FSC

FSC-certified: the paper and cardboard used in our packaging comes from sustainable forest management - enabling us to take a resources-sparing approach to the raw material of wood
