Pagrindinės savybės

- ✓ Circular polarising camera filter
- ✓ 52 mm
- ✓ Black
- ✓ 1 pc(s)

Aprašymas

- Precision rotary mount to adjust for the best filtering effect, high-quality lens glass, for removing distorting mirror effects and generating rich colours with maximum picture contrast.
- Enhances contrast and brings depth to the picture, e.g. the sky becomes a strong blue, clouds become artificially white, colours are clearer and more intense.
- Depending on the filter setting, the contrast and depth vary and non-metallic reflections (water, plastic, glass, etc.) are removed.
- Maximum effectiveness with a photographic angle of 30-40° to the reflecting surface.
- Ultra-flat and ultra-lightweight rotary mount for variable settings.
- Effect filter with effects that cannot be achieved subsequently using an image editing program: objects worth seeing, for example behind shop windows or aquariums, become visible.
- NMC16 coating: eight layers on each side, for excellent permeability to light and superb anti-reflective properties.
- Vapour-deposited, multi-layer coating.
- Nano-coating for the lotus effect: easy to clean, prevents misting and further dirt accretion, water, oil and dirt-repellent.
- Scratch-resistant.
- Filter front and back are coated, ensuring no loss of contrast or brilliance and preventing ghosting and double images.
- Ultra-thin wide mount: prevents vignetting.
- Barely increases the lens front section.
- Filter mount made from black anodised metal and blackened inner edges to prevent reflections.
- Edge sealant protects against soiling.
- Stable shape of the mount despite temperature fluctuations.

- Quality class (glass): high-quality lens glass.
- Simultaneous lens protection.

What's in the Box

- 1 "Profi Line" polar filter.
- 1 filter box.

Techninė specifikacija

Features	
Filter size	52 mm
Filter type	Circular polarising camera filter
Product colour	Black
Material	Glass
Coating	Multi Resistant Coating (MRC)
Packaging content	
Quantity per pack	1 pc(s)
Packaging data	
Package type	Box
Other features	
Diameter	5.2 cm
Matmenys ir svoris	
Svoris	1,00kg
