Pagrindinės savybės

- ✓ Self-coiling cut resistant carbon steel cable is easily transportable, stretching up to 1.8m (6') and shrinking down to 76mm (3"). Protective sheathing helps keep attachment points such as desks and tables free from scratches.
- ✓ Slim Nano lock head design won’t interfere with I/O ports or raise the device off its surface.
- ✓ Each Kensington lock is precision engineered to meet or exceed rigorous industry standards for strength, physical endurance and mechanical resilience.
- ✓ 5mm keying system - common across all of Kensington’s latest locks - so there’s only one keying system to manage. Smaller key opening helps thwart picking attempts.
- ✓ Register & Retrieve™, Kensington’s online key registration program that allows for quick, secure and free key replacement if ever lost or stolen.
- ✓ Five-year limited warranty, so you can rest assured knowing you’re covered by Kensington, inventor and a worldwide leader in laptop security locks.

Aprašymas

With today's slim laptops with Nano security slots, a typical cable lock head may fit, however the lock can be thicker than the laptop itself. This can prevent the device laying flat, unevenly raising it off the desktop. A redesigned version of the innovative Slim NanoSaver® Laptop Lock, the Slim NanoSaver® 2.0 Portable Keyed Laptop Lock features a smaller lock head, with the locking cleat positioned low and the key cylinder up high and out of the way. This careful sizing and positioning of components has created a premium locking solution that won’t block ports and allows ultra-thin and 2-in-1 laptops with nano lock slots to lie flat and stable. Verified and tested for industry-leading standards in torque/pull, foreign implements, lock lifecycle, corrosion and other environmental conditions, the Slim NanoSaver® 2.0 Portable Keyed Laptop Lock features an easily transportable self-

coiling carbon steel cut-resistant cable that stretches up to 1.8m (6') and shrinks down to 76mm (3). The cable is wrapped in a protective sheathing to help keep attachment points such as desks and tables free from scratches. Additional features include a 5mm keying system, common across all of Kensington’s latest locks so there’s only one keying system to manage, while the smaller key opening helps thwart picking attempts. Register & Retrieve™, Kensington’s online key registration program allows for quick, secure, and free key replacement if ever lost or stolen. A five-year limited warranty means you can rest assured knowing you’re covered by Kensington, inventor and a worldwide leader in laptop security locks.

Techninė specifikacija

Features	
Product colour	Silver, Black
Best uses	Laptop
Lock type	Key
Cable lock slot type	Kensington
Cable lock security features	NanoSaver
Material	Carbon steel, Plastic
Security slot anchor type	Nano
Keys quantity	2 keys
Cable type	Coiled
Easy to install	Yes
Easy to use	Yes
Country of origin	China
Weight & dimensions	
Cable length	1.8 m
Cable diameter	3.5 mm
Weight	102 g
Packaging data	
Quantity per pack	1 pc(s)
Package width	120 mm
Package depth	200 mm
Package height	30 mm
Package weight	100 g
Logistics data	
Master (outer) case net weight	2.71 kg
Master (outer) case width	130 mm
Master (outer) case length	365 mm
Master (outer) case height	180 mm
Master (outer) case gross weight	3 kg
