Pagrindinės savybės

- ✓ The Kanguru FlashBlu30 USB3.0 flash drive with physical write protect switch combines cost-effective data storage and convenience with superspeed data mobility. This high-performance USB3.0 makes the Kanguru FlashBlu30 one of the fastest drives on the market with data transfer read speeds of up to 145MB per second and write speeds of up to 45MB per second
- ✓ The convenient physical write protect switch enables the user to quickly switch back and forth between read only and read/write modes to protect data from being accidentally overwritten or erased

Aprašymas

The Kanguru FlashBlu30 USB flash drive offers affordable, protective storage at lightning-fast data transfer speeds. Its small, durable aluminum design is compact and lightweight making it the perfect way to carry your files from place to place. It comes with a physical built-in write-protect switch to protect your data and safely connect to any computer. Lock the drive in “read-only” mode, and view your files in a protected mode so that they cannot be overwritten. This feature also prevents viruses and malware from having any chance of infecting the drive when locked. Flip the switch back to unlock mode and you can make adjustments to your files just as you would with any other flash drive.
The FlashBlu30 USB flash drive offers lightning-fast USB3.0, while maintaining compatibility with USB2.0. Connecting the Kanguru FlashBlu30 to a
