Aprašymas

Arzopa D156 digital photo frame (brown) 15.6"

The Arzopa D156 digital photo frame with touch screen is a modern way to display your memories. It faithfully captures the emotions locked in your photos on its large 15.6" Full HD screen. Equipped with Wi-Fi, 32GB of built-in memory and a microSD card reader, it allows you to quickly transfer media directly from your phone - from anywhere in the world. It supports photos, video and music, as well as automatic rotation, allowing you to display photos in any orientation. Thanks to its minimalist casing, it is ideal as a home decoration or a gift for any occasion.

Memories on the big screen

View photos and videos on the large 15.6-inch LCD screen in Full HD (1920 × 1080) resolution. With a 16:9 aspect ratio and 1000:1 contrast ratio, the image is clear and full of color. This makes every photograph look crisp. Family moments, vacation footage and important moments will stay with you for longer.

Share photos from anywhere

With built-in Wi-Fi and the intuitive ARZOPA app (available on Android and iOS), you can transfer photos and videos directly from your phone - instantly and without cables. This is great if you want to regularly share news with your grandmother, parents or friends - just a click away.

Vertical, horizontal? Automatic rotation

The frame itself recognizes the orientation of the photo and adjusts its positioning - the auto-rotate function ensures that every shot looks perfect, whether you put the frame vertically or horizontally. You can place it on a shelf, desk or dresser - it will look elegant everywhere.

Not just photos - a media player

This frame is more than just a slideshow. It supports music (MP3), movies (MP4, 3GP) and photo show with soundtrack - just upload files through the memory card reader (up to 128 GB) or from the 32 GB built-in memory. Two speakers make the presentation take on even more life.

Modern functionality and style

With an auto shut-off and timer function, you can set when you want the frame to start up and shut down - for example, in the morning and in the evening. The minimalist frame in dark brown blends in with any interior design.

Included

- Frame
- Power supply (5V/2A)
- Bracket
- User manual
