Pagrindinės savybės

- ✓ Optimized for the RP04/RM04
- ✓ Enhanced 4K UHD video
- ✓ AI auto framing
- ✓ Active noise cancellation

Aprašymas

Optimized for online learning

The Zoom Certified DV01K smart camera, with its enhanced audio and video features as well as its compatibility with leading conferencing apps, is the ideal solution for remote and hybrid learning.

Capture high-quality videos

Precisely calibrated for the BenQ Board RP04 and RM04, the DV01K comes with a high-performance Sony image sensor that enhances image quality and lets you capture videos in 4K UHD clarity.

Hear from a distance

The DV01K has four built-in omnidirectional microphones that can pick up sound from up to 26 feet away, ensuring that students can be heard no matter where they’re seated in the room.

Tune out distractions

With AI-powered active noise cancellation, remote participants on video calls can easily identify who’s speaking and clearly hear what they’re saying even in a busy classroom.

Keep speakers in focus

For sessions in which teachers and students require everyone’s full attention, the DV01K’s AI auto framing and voice tracking features keep them the main focus of the video while they’re speaking.

Designed for convenience

Streamlined for classrooms, the DV01K's intuitive design removes the complexity from installation, making it easy to mount, set up, and even cover up when classes have ended.

Secure and stable

The DV01K has its own built-in mount and screws specially designed for the BenQ Board RP04 and RM04. Just tighten the screws for a secure and stable installation.

No cables required

The camera has an integrated USB-C connector, eliminating the need for additional cables that could potentially get snagged and may cause the camera to shift or topple over.

Just the right angle

Tilt the camera up to 15°, giving you more flexibility when mounting it on BenQ Boards of different heights and sizes. Its ePTZ (pan-tilt-zoom) controls add a wider perspective when adjusting the frame.

Protect student privacy

The camera comes with a privacy cover that you can slide closed when it’s not in use. This will block the lens in case the host forgets to end their stream or video call.

Techninė specifikacija

Camera	
Megapixel (approx.)	8.29 MP
Sensor type	Sony
Digital zoom	4x
Horizontal field of view	110°
Vertical field of view	70°
Minimum illumination	0.01 lx
