Pagrindinės savybės

- ✓ Protect Sensitive Visual Data: Privacy screen for Dell U3824DW monitor features Microlouver technology that obscures the display when viewed from the sides to prevent visual eavesdropping; Approx. viewing angle of 60° (+/- 30° from center); TAA Compliant
- ✓ Precision Fit for 38" Ultrawide Display: Custom-designed for Dell U3824DW (21 by 9), measuring 35.2x14.8in (89.4x37.6cm); Easy installation with included adhesive strips (choose glossy or matte side) and optional mounting tabs for lower bezel attachment
- ✓ Reduce Eye Strain: This computer monitor privacy screen blocks up to 51% of blue light, which helps to reduce digital eye strain and improves visual comfort during prolonged use; Light transmittance is close to 60% for better screen readability
- ✓ Matte or Glossy Sides: Double-sided security shield features an anti-glare matte side for environments prone to glare, and a high-gloss side that helps retain color vibrancy; Matte side has an additional coating to protect against scratches/fingerprints
- ✓ The IT Pro's Choice: Our high-quality privacy screens are trusted across industries and designed to fit nearly every device type, screen size, aspect ratio, and mounting style; Backed by free lifetime 24/5 multi-lingual technical assistance

Aprašymas

Protect sensitive information by keeping on-screen data private

This privacy screen is designed for the curved 38-inch Dell U3824DW 21:9 ultrawide monitor, effectively obscuring sensitive on-screen information and ensuring that both the center and outer edges of the screen are shielded from unwanted views.

Prevent Visual Eavesdropping

The privacy shield obscures the computer's screen from the sides while providing an approximate viewing angle of 60 degrees (+/- 30 degrees from the center) to the user. The security shield also features blue light reduction, blocking between 40% to 51% of the blue light emitted from the display in the 380nm - 480nm wavelength range.

The privacy shield has a light transmittance of 65% providing optimal screen brightness and enhanced levels of privacy.

Double-Sided Filter

The privacy screen protector is double-sided, with a matte anti-glare side for environments prone to glare and a high-gloss side that helps retain color vibrancy. The matte side provides additional screen protection with a fingerprint and scratch-resistant coating.

Hassle-Free Installation

Easily install the glossy or matte side of the privacy screen protector using the included adhesive strips; Optional mounting tabs are included for additional support on lower bezel. The included adhesive strips are transparent to minimize visibility and preserve the screen's full viewing area, providing a seamless fit.

Note: Before installation, ensure the side of the filter that is intended to face outward has been selected. Please note that once applied, the adhesive strips form a strong bond that makes removal and reinstallation difficult.

Techninė specifikacija

Design	
Maximum screen size	96.5 cm (38")
Suitable for	Monitor
Type	Frameless display privacy filter
Filter colour	Black
Product colour	Transparent
Features
