Aprašymas

Charging Station and Storage Solution for Classrooms, Hospitality, and more

Charging, storing, and protecting portable devices is easy with the reliable Manhattan EU 10-Bay AC Charging Cabinet. It’s the ideal solution for laptops and other devices up to 16 inch in schools, restaurants, gyms, doctor’s offices, universities, hotels, offices, and more, so you can efficiently assist your students, guests, patients, customers, and patrons. Whether used on a desktop, or mounted on a wall, it delivers maximum versatility and peace of mind.

Optimized Power with Built-In Protection

Equipped with ten EU AC outlets, arranged in two PDUs at the rear, this cabinet provides reliable power distribution. For maximum safety, it features a surge suppression rating of 220 joules to defend your sensitive electronic components against power surges and spikes. The included 2 m power cable (C13 to EU plug) ensures convenient connection to mains power.

Spacious, Organized, and User-Friendly

Each of the ten device slots offers generous dimensions of 430 (D) x 35 (W) x 272 (H) mm, with integrated cable management built into the dividers for a clean and organized setup. Side openings act as hand grips for easy lifting, and the cabinet’s rounded edges help prevent injuries in fast-paced or shared environments.

Built to Last - Secure and Durable

Made from up to 2 mm thick steel with a durable powder-coated finish, the cabinet is both robust and lightweight. A ventilated housing and perforated steel door ensure optimal airflow, while the lock secures your devices behind a tamper-resistant swing handle. Two keys are included for safe access control.

Flexible Installation Options

This charging cabinet adapts to your space and workflow. Wall-mounting holes on the back allow for space-saving installation and added theft protection - all mounting hardware is included. For even greater capacity, the unit is stackable up to two levels.

Sleek, Practical, and Purpose-Built

Finished in matte black with a clean industrial look, the EU 10-Bay Charging Cabinet is built to handle the demands of modern device management. Whether you’re outfitting a classroom, IT lab, or shared workspace, it combines functionality, durability, and safety - all in one compact and configurable unit.

Techninė specifikacija

Design	
Type	Portable device management cabinet
Product colour	Black
Slot width	3.5 cm
Slot depth	43 cm
Slot height	27.5 cm
Door type	Single
Door opening	Side opening
Castor wheels	No
Cord length	2 m
Housing material	Steel, Plastic
Cable management	Yes
Features	
Number of devices supported	10
Supported portable devices	Laptop, Tablet, Ultrabook, Smartphone
Device connectors supported	AC
Maximum screen size	40.6 cm (16")
Charging source	AC
AC outlet types	Type F
Power protection features	Overload, Surge protection
Locking	Yes
Lock type	Key
Power	
AC input voltage	220 - 240 V
AC input frequency	50 - 60 Hz
Output voltage	230 V
Current	10 A
Total power	2300 W
Operational conditions	
Operating temperature (T-T)	0 - 45 °C
Operating relative humidity (H-H)	20 - 80%
Storage temperature (T-T)	-15 - 45 °C
Certificates
