Aprašymas

Zeblaze Vibe 8 Abyss smartwatch (Gray)

Zeblaze Vibe 8 is a smartwatch created for people who do not recognize compromises between functionality and durability. It combines advanced technology with rugged construction, making it suitable for both everyday use and demanding off-road expeditions or intense workouts. It's made of high-quality 316L stainless steel and protected by scratch-resistant sapphire glass for durability you can rely on. This is a watch that will keep up with even the most active users - regardless of the conditions.

Military-grade durability

The Zeblaze Vibe 8 is designed to withstand extreme challenges, as evidenced by its compliance with the MIL-STD 810H standard. The device has passed a series of immunity tests - it is not intimidated by temperatures up to 70°C, freezing temperatures reaching -40°C, contact with salt spray or shock. The watch can also work in high humidity and freezing rain without any problems. It also boasts an IP69K rating and 5 ATM water resistance.

It's an ideal choice for travelers, athletes and outdoor enthusiasts who need equipment that is reliable in any situation. With so much durability, the Vibe 8 allows you to simply enjoy the adventure!

Large and bright AMOLED display

The Vibe 8 is equipped with a 1.43-inch AMOLED screen, which offers excellent image quality - clear and contrasting. A brightness of up to 1,000 nits guarantees full readability even in bright sunlight, while a pixel density of 391 PPI ensures rich detail. All this allows you to comfortably operate the smartwatch in almost any conditions.

Advanced health and activity monitoring

A new biometric sensor with five LEDs accurately records data - responsible for accurate measurements of heart rate, SpO_2 level and sleep quality. And if you lead an active lifestyle, try out the available sports modes, such as running, climbing and basketball, for example. You can choose from more than 100 sports - you're sure to find something for you. Monitor your progress and get better and better results!

Extremely long operating time

The smartwatch offers an impressive battery life - up to 30 days with typical use, up to 60 days in power-saving mode or up to 18 days with heavy use. This means you don't have to worry about daily charging, which is especially important when traveling or on long hikes. The Vibe 8 is the perfect choice for anyone who values independence and wants technology to keep pace without interruption.

Calls and notifications - stay connected

The built-in microphone and speaker allow you to make phone calls directly through the watch (after pairing it with your smartphone via Bluetooth). You can conveniently receive and make calls, as well as view messages without reaching for your phone. It's perfect for people who want to stay connected while maintaining complete freedom!

Style tailored to you

Zeblaze Vibe 8 allows for full personalization with over 300 watch faces in the cloud and the ability to upload your own photos as backgrounds. In addition, the always-on display feature ensures that important information is always visible on the screen. Whether you prefer sporty minimalism or a more elegant look, the Vibe 8 will match your style and mood.

Built-in flashlight - your helper in the dark

The built-in LED flashlight provides a bright and steady light that will come in handy in many situations - from camping to quick repairs in poorly lit areas. It's a feature that makes you safer and more comfortable, allowing you to operate with confidence even after dark.

Plenty of useful features and app compatibility

The Vibe 8 offers plenty of practical functions that will come in handy on a daily basis - from controlling your phone's music and camera, to weather forecast, to alarm clock, stopwatch and activity reminders. This is a watch that supports the user while working, training and resting! The smartwatch also works with the FitCloudPro app, which allows, among other things, detailed analysis of health and workout data, as well as the installation of additional dials.

Included

- Smartwatch
- Magnetic charging cable
- User manual
