- **Full HD Resolution:** 1920 x 1080 resolution delivers sharp and detailed images.
- **IPS Panel:** Provides consistent and accurate colors across wide viewing angles (178°/178°).
- **Projected Capacitive Touch:** Offers easy and precise touch navigation.
- **Tilting Flexibility:** Adjustable from -5 to 90 degrees for optimal viewing comfort and ergonomics.
- **Durable Design:** Features a glass overlay for easy cleaning and resistance against bacteria and dust, along with a rugged metal housing and base for stability.

Ideal for public and interactive environments, the TX-22's design also ensures user comfort with its tilting flexibility, ranging from -5 to 90 degrees. The glass overlay offers easy cleaning and resistance against bacteria and dust, while the durable metal housing and rugged base design guarantee stability and strength.

AG Neovo is a company known for its commitment to quality and innovation in display technology, offering reliable and high-performance solutions for various professional and consumer applications.

Featuring an LED-backlit IPS panel, the TX-22 offers more than just full HD 1920 x 1080 resolution. Consistent and accurate colour is discernible from all viewing angles. Projected capacitive touch technology enables users to navigate the display with ease and precision. Its tilting flexibility ranging from -5 to 90 degrees ensures user comfort and ergonomically friendly for public and interactive environments. Glass overlay brings such benefits as ease of cleaning and resistance against bacteria/dust. Durable metal housing and rugged base design guarantee stability as well as strength.
