Aprašymas

Want less waste? And more screen protection? The brand-new Re:refresh screen protector from PanzerGlass® is made of 45% certified trash and will keep your screen safe from accidental bumps against sharp-edged dangers, crushing falls onto stone-hard pavements and other hazards of everyday life. The scratch, shock and drop-resistant screen protector even has a smudge-free coating that reduces traces of fingerprints and grease to give you a clear screen view. And this product comes in a box made of recyclable FSC™ -certified paper.

Prolonging the lifetime of our devices, thereby postponing the need to produce new ones, is one way of working toward a more sustainable future. Another is to protect the world’s wildlife and reduce plastic waste in nature. To this end, PanzerGlass® has teamed up with non-profit organization The Perfect World Foundation to support “Project Ocean”. For each Re:refresh sold, PanzerGlass® will make a donation to the project, dedicated to protecting marine life, for instance by reducing the amount of plastic and ghost nets that end up in our oceans.

The screen protector comes with an EasyAligner that makes installation a piece of cake (seriously!), and to make it even easier, we’ve included step-by-step instructions as well as a QR code for quick access to our online how-to video. And remember: Once the screen protection is applied, you’ll never again fear the sight of your phone tumbling to the ground screen first. This may not happen, but if it does, you’ll regret not having clicked “add to cart”.

The screen protector is Ultra-Wide Fit, meaning it covers the front surface of your phone, providing a complete and crystal-clear view of your screen, while still leaving a little room around the edges for a PanzerGlass® case. If you want 360-degree phone protection, combine the screen protector and case with a PanzerGlass® PicturePerfect camera lens protector.
