Iiyama ProLite T2752MSC-B1 27" Touchscreen Monitor

The Iiyama ProLite T2752MSC-B1 is a 27-inch Full HD (1920x1080) monitor with IPS panel technology, delivering exceptional colors and wide viewing angles. Its Optical Bonded Projective Capacitive (PCAP) 10-point touch technology ensures accurate touch response and reduces light reflection. Protected against humidity and moisture, this monitor offers a seamless user experience.

Features:

- **Optical Bonding:** Reduces light reflection and protects against humidity.
- **PCAP 10-Point Touch:** Provides a seamless and accurate touch experience.

- **IPS Panel:** Ensures exceptional colors and wide viewing angles.
- **Flexible Stand:** Offers adjustable positioning for ergonomic comfort.
- **Cable Management System:** Hides cables for a clean workspace.
- **Nano Coating:** Provides smoother touch, less static, and reduces dirt and fingerprints.

The flexible stand allows various angle adjustments for enhanced ergonomics, while the integrated cable management system keeps your workspace clutter-free. The nano coating ensures a smoother touch, reduces static, and minimizes dirt, dust, and fingerprints. An ideal choice for diverse applications.

IYAMA is a well-known brand recognized for its high-quality displays and innovative technology, providing reliable solutions for both professional and personal use.

The ProLite T2752MSC-B1 with its Full HD (1920x1080) resolution and with IPS panel technology offers exceptional colors and wide viewing angles. The Optical Bonded Projective Capacitive (PCAP) 10-point touch technology ensures a seamless and accurate touch response and a lower light reflection, in addition, the display is protected against humidity and potential moisture development. The flexible stand can be positioned at several angles creating a comfortable and ergonomic user experience and the integrated cable management system hides all the cables and electrical wires giving a neat and cable-free workspace. A special Nano coating ensures a smoother touch and less resistance in the swipe. It makes the screen less static and susceptible to dirt, dust and fingerprints. A perfect choice for a vast array of applications.
