IIYAMA ProLite TF1015MC-B3 10.1" Touchscreen Monitor

The Iiyama ProLite TF1015MC is a 10.1-inch open frame monitor that utilizes PCAP touch technology within an eye-catching, edge-to-edge glass bezel. Designed for durability and scratch resistance, it is ideal for high-use public-facing applications like kiosks. The IPS panel ensures accurate and consistent color reproduction with wide viewing angles.

Features:

- **PCAP Touch Technology:** Offers a responsive and accurate touch experience.

The ProLite TF1015MC (10.1 inch) uses PCAP touch technology and is built into an eye catching bezel with edge-to-edge glass. Thanks to a glass overlay covering the screen and a rugged bezel, it guarantees high durability and scratch-resistance, making it perfect for kiosk and high use public facing applications. The IPS panel technology offers accurate and consistent colour reproduction with wide viewing angles. Equipped with a foam seal finish it supports seamless integration into kiosks and provides IP65 rating resulting in dust and water resistance from the front. Landscape, portrait and face-up orientation ensures flexible mounting possibilities in almost any installation. For ease of integration, the TF1015MC can be equipped with optional external mounting brackets (OMK2-1) making it an ideal solution for kiosk integrators, industrial environments, control rooms and interactive multimedia.
