The AMD Ryzen Threadripper Pro 9975WX represents the pinnacle of workstation processing, engineered specifically for the most demanding professional environments. Built on the advanced “Shimada Peak” architecture, this processor delivers phenomenal performance for rendering, simulation, complex engineering analysis, and high-resolution content creation.

Designed for the sTR5 platform, the Threadripper Pro series provides unmatched scalability, massive I/O throughput, and support for extensive multi-channel memory configurations, ensuring your workflow remains seamless regardless of the workload complexity.

Key Workstation Benefits:

- **Extreme Multi-Threading:** Optimized for applications that heavily utilize parallel processing, significantly cutting down rendering and compile times.
- **High Base Frequency:** Operates at a powerful 4.0 GHz base clock speed, providing excellent responsiveness for both single-threaded tasks and demanding core workloads.
- **Professional Platform (sTR5):** Offers next-generation connectivity, massive PCIe lane count, and unparalleled expansion capabilities necessary for modern, high-end workstations.
- **AMD PRO Technologies:** Provides enterprise-grade security features, remote manageability, and long-term platform stability required by professionals and IT departments.

Installation Note:

This product is supplied as a boxed processor (WOF - Without Cooler). Due to the extreme performance capability of the Threadripper Pro 9975WX, a dedicated, high-performance thermal solution (sold separately) is mandatory to ensure optimal operation and thermal stability.

AMD (Advanced Micro Devices) is a global leader in high-performance computing, graphics, and visualization technologies. AMD processors are renowned for delivering innovation and power to gamers, professionals, and enterprise users worldwide.

Order today from ++SHOP++ as we offer the best deals and guaranteed authentic hardware for your professional computing needs.
