No Surprises After Uploading

From the first edit to the final upload, your colors stay true, guided by accurate color and proper gamut that let you create with confidence and avoid over-editing.

95% P3 | 100% Rec.709 | 100% sRGB

See It Right, Share It Right

PV3200U delivers 100% Rec.709 and 95% P3 coverage, ensuring the right colors from editing to publishing. With the Wireless Hotkey Puck, you can switch color modes with a single tap, accurately preview your content before exporting, and avoid unexpected color shifts on YouTube, Vimeo, and other video platforms. What you see is what your audience gets.

iDevice Color Sync

Mobile Devices Color Preview

Take it a step further by previewing how colors will appear on mobile devices like iPhone and iPad before exporting. Ensure consistent visuals across screens.

iPad Color Preview

Open iDevice Color Sync, choose iPad, and preview video colors instantly.

iPhone Color Preview

Open iDevice Color Sync, select iPhone, and see how your video colors appear on screen.

Certified by Renowned Third-Party Authorities

Calman Verified

Every BenQ video editing monitor is fully Calman Verified. Creative professionals demand excellence, and BenQ delivers.

Colors You Can Trust

BenQ AQCOLOR ensures 'Accurate Reproduction,' delivering out-of-the-box color precision with Delta $E \leq 2$, corner-to-corner uniformity, and a factory calibration report. All features are rigorously tested for consistency, providing all types of creators with unparalleled precision and total color confidence.

Industry Standard

Experience broad coverage of in-demand color spaces, carefully calibrated for color temperature,

gamma, and brightness.

Uniform Visuals

Work with consistent color uniformity from edge to edge on a single monitor or across multiple monitors.

Accuracy Guarantee

The assurance that your monitor accurately represents your intended colors, with third-party validation for precise reproduction.

Crisp Voices. Clear Mix. No Extra Gear.

Studio Mode

Let Your Audience Hear It Right

Designed for audio-focused video creators, Studio Mode delivers unprocessed true-to-source sound, preserving every voice, background sound, and effect without over-editing or heavy tuning. Your audience hears the true clarity of your work.

2.1ch Frequency Separation

Clear Voices, Balanced Bass

Edit with confidence, no more ear fatigue. Built-in dual 2W mid-high speakers and a dedicated 5W woofer deliver balanced sound. Unlike typical PC speakers, clear vocals stand out without muddy bass. Even without headphones, you can trust what you hear.

Get Projects Done Faster

Spend less time worrying about your gear and display, and focus on what truly matters.

BenQ Display Pilot 2

Customize Your Workspace, Stay in Control

With BenQ's free Display Pilot 2 software you can easily organize essential functions like ICCsync, Color Modes, and Desktop Partition for a seamless editing experience. Keep your workflow efficient by tailoring the interface to your needs—less time navigating menus, more time creating.

M-book Mode: Mac Device Color Matching
