that sit neatly on your desk or table, leaving enough space to fit virtually any laptop. It even has a drawer to hold office supplies.

Adjust your monitor to the desired height

Create a workstation that works best for your needs. This monitor riser features modular columns, made of stackable components that snap together easily to raise or lower the height of the monitor stand. You can choose between three different height settings, with a maximum height of 6.6" (168 mm). You can also reconfigure the columns at any time to adjust the height of the stand.

Maximize desk space and reduce clutter

The monitor stand makes it easy to work free from clutter. The work surface raises your monitor to a comfortable height to create a more ergonomic environment. The large monitor riser, 19.7" x 13" (500 x 330 mm), provides ample storage area underneath. You can also use the work platform to hold a printer, to free up counter space.

In the area under the stand, between the columns, there is large storage area with plenty of space to put your laptop and personal items. A convenient drawer gives you an easily accessible place to keep pens and other small office supplies. There is even a front slot that will hold most tablets and phones, so your important devices are close at hand when you need them.

Simple setup

The monitor stand is easy to assemble, so you'll be up and running in no time. The non-skid base on the columns protects your work surface from scratches or scuffs and ensures your monitor rests securely while you work. A built-in cable manager routes cables neatly to keep them out of view.

The MONSTADJDL is backed by a StarTech.com 5-year warranty and free lifetime technical support.

Techninė specifikacija

Mounting	
Number of displays supported	1
Maximum screen size	81.3 cm (32")
