Pagrindinės savybės

- ✓ Kombinuotas 2,85 L Juoda
- ✓ Drėgnas plovimas Programavimo funkcija
- ✓ Automatinis pagrindo apsisukimas
- ✓ „Wi-Fi“
- ✓ 68,5 dB
- ✓ Ličio-jonų (Li-Ion) 5200 mAh Trukmė: 180 min
- ✓ 6000 Pa

Aprašymas

Forget About Cleaning, Really.

Free your time and let Roborock S8+ do the dirty work. Experience the next level of cleaning with our latest technology – DuoRoller™ Brush and VibraRise® Mopping System. Coupled with the RockDock™ Plus, the smart cleaning experience has never been easier.

Handles Your Dirty Work

After cleaning, the robot vacuum automatically empties itself into the 2.5L dust bag, storing up to 7 weeks of dirt and dust without manual intervention, keeping you stay away from dirty work for longer.

The Perfect Cleaning Duet

The all-new dual rubber brushes enhance vacuuming and ensure fewer hair tangles, taking hands-free cleaning to the next level. From hardwood to tiles, and even carpets and rugs, hair and dirt are easily swept away.

Hair? Dirt? Dust? Nowhere to Hide.

With the improved HyperForce® suction power of 6000 Pa, even the smallest particles can be sucked up effortlessly by the Roborock S8.

Level Up Your Carpet Cleaning

Carpet cleaning is a breeze with Roborock Carpet Boost+ system that'll leave your carpet mess-free from pet hair to bread crumbs.

Mop with the Power of Sound

Experience the power of sonic vibration technology that scrubs with consistent pressure to leave floors gleaming.

Smart Enough to Stay Out of Troubles

With 3D structured light and infrared imaging technology, Reactive 3D Obstacle Avoidance system can help the robot vacuum identify and avoid potential hazards on the floors, in both bright and dark rooms, bringing you a worry-free cleaning experience.

The Best Route, Everytime

PreciSense® LiDAR Navigation system is the brain behind your robot's extraordinary ability. It'll scan and create detailed maps to find an optimal route to clean your home, leaving dirt with no escape.

Customizable App Features

With Roborock App, cleaning control is just in your hands.

Smart Suggestions for No-Go-Zones

Automatically detects easy-to-get-stuck places and suggests No-Go Zones to prevent your robot vacuum from getting caught in small spaces. You can also draw Invisible Walls that block certain areas from your robot vacuum's entry in the Roborock App.

Map Quicker, Clean Faster

Experience fast and effective cleaning as your robot vacuum can create a map up to 6 times faster before the first cleaning task and can clean your daily area 30% faster when needed.

Custom Cleaning Routines

Decide on your time when the robot vacuum cleans with custom cleaning schedules, and set cleaning routines for particular areas in the house regularly or on demand.

Multi-level Mapping System

Have a house with more than one floor? Multi-level mapping automatically recognizes distinct levels of your home. All you have to do is put the robot down. No additional docks or app identification is needed. Up to four floors supported.

Off-Peak Charging Supported

You can choose off-peak times to charge to save on power as well as the costs of using peak-time electricity.

Techninė specifikacija

Konstrukcija	
Dulkių talpos tipas	Kombinuotas
Produkto spalva	Juoda
Forma	Turas
Dulkių rinkiklio tipas (pagrindas)	Dulkių maišas
Valdoma nuotoliniu valdymu	Taip
Išmaniojo telefono nuotolinio valdymo palaikymas	Taip
Veikimo charakteristikos	
Drėgnas plovimas	Taip
Dulkių kiekis (dulkių siurblys)	0,35 L
Automatinis pagrindo apsisukimas	Taip
Bazinės stotelės funkcijos	kraunama, Purification
Garso lygis	68,5 dB
Dulkių kiekis (pagrindas)	2,5 L
Dulkių kiekis (iš viso)	2,85 L
Vandens bako talpa	0,2 L
Programavimo funkcija	Taip
Judėjimo ribojimo tipas	Programos sukuriamas
Automatiškai išsivalantis dulkių konteineris	Taip
Automatinis maršruto apskaičiavimas	Taip
Kliūčių aptikimas	Taip
„Wi-Fi“	Taip
Dažnių juosta	2.4 GHz
Šepečio tipas	Volelis
Integruoti jutikliai	Lazeris
Naršymo tipas	Laser Distance Sensor (LDS)
Lengva valyti	Taip
Briaunų atpažinimas	Taip
Baterija	
Baterijos technologija	Ličio-jonų (Li-Ion)
Baterijos talpa	5200 mAh
Energijos valdymas	
Trukmė	180 min

Energijos suvartojimas	69 W
Įkraunama	Taip
Svoris ir matmenys	
Aukštis	96,5 mm
Plotis	350 mm
Ilgis	353 mm
Svoris	12 kg
Bazinės stoties matmenys (plotis x gylis x aukštis)	305 x 440 x 448 mm
Pakuotės duomenys	
Pakuotės plotis	487 mm
Pakuotės gylis	379 mm
Pakuotės aukštis	367 mm
Paketo svoris	13 kg
Pakuotės tipas	„Box“
Pakuotės turinys	
Valymo šluostė	Taip
Instrukcija	Taip
Bazė komplekte	Taip
Maitinimo laidas įtrauktas	Taip
Techninė informacija	
Palaikomos mobiliosios programėlės	Taip
Valymo šepetėlis	Taip
Pridėta šluota	Taip
Siurbiamoji galia	6000 Pa
Matmenys ir svoris	
Matmenys (I x P x A)	48,00cm x 37,00cm x 37,00cm
