LOOK AT ME!

Panorama design for perfect visibility

You deserve to show off what you got. Large window panels on the front and the side allow you to watch your PC components at work anytime. This makes Light Base 900 FX White the perfect choice as your show case.

BRIGHT LIGHT

3 meters of LEDs

Light Base 900 FX White is predetermined for the big show. Nothing proves that more than the massive ARGB LED strip which is visible from all angles. The 3m long strip consists of 172 LEDs. With an included ARGB controller button and even more colors and modes with motherboard synchronization, you can make Light Base 900 FX White truly your own. Express yourself!

LED CASE FANS

Optimized fan blades for high airflow

Light Base 900 FX White comes with 4 pre-installed Light Wings fans. One fan is installed as rear exhaust, 3 Light Wings 140mm PWM White fans with reversed fan blades are pre-installed on the side mounting. The reverse fans make sure your system is still an eye-catcher when installed as a side intake. Their 7 airflow-optimized fan blades not only reduce noise-generating turbulences but also ensure that this fan provides the performance that is needed, even in demanding configurations.

UP, UP, DOWN, DOWN, LEFT, RIGHT, LEFT, RIGHT...

Change the layout in literal seconds

It takes longer to read this text than to invert Light Base 900 FX White. With its relocatable feet, you can invert the PC case literally in seconds. You can also choose a horizontal layout, which is executed just as quick. No matter which layout your gaming room requires: Light Base 900 FX White delivers.

MAKE IT YOUR CASE

Large dimensions for endless creativity

The 4 pre-installed fans can be expanded to up to 10 in total, making Light Base 900 FX White extremely versatile. With its extra spacious design, it can hold up to two 420mm radiators

simultaneously, an E-ATX motherboard and even the most powerful graphics cards. Thanks to the two-chamber design, drives and cables are neatly tucked in the back and do not get in the way of airflow.

MAXIMUM USABILITY

A new level of convenience

The detachable radiator and fan brackets in the top and bottom make installation of your cooling setup very easy. Each bracket fits a 420mm radiator. On top of that, you can install another radiator with up to 360mm length in the side, for a whopping 3 radiators. Additionally, Light Base 900 FX White comes with 2 ARGB and PWM hubs that offer 12 connectors in total. Their positions at the top and bottom allow you to conveniently connect your hardware.

HOLD MY GPU

For a neat interior

Light Base 900 FX White features a flexible VGA holder that subtly prevents your GPU from sagging. The best part: This holder works in any orientation and with a horizontally or vertically installed graphics card. The result is a clean look even if you use big and heavy graphics cards.

ON THE FLIPSIDE...

Support for motherboards with backside connector design

The motherboard tray fully supports backside connector designs like Asus BTF (Back to Future), MSI Project Zero, and Gigabyte Project Stealth, for a true and cable-free view.

- Fully windowed front and side panel for a stunning panoramic view on all your PC components
- Impressive illumination from every angle with a massive ARGB LED strip
- 4 Light Wings 140mm PWM White fans for high airflow and quiet operation
- Can be switched to inverted or horizontal layout in literal seconds thanks to intuitive handling
- Extra spacious design for up to two 420mm radiators at the same time and an E-ATX motherboard
- Support for motherboards with backside connector design
