

MEMORY DIMM

32GB DDR5- 7600/KIT2

PVXR532G76C36K

PATRIOT

Modelis: PVXR532G76C36K

Gamintojas: PATRIOT

EAN: 4711378425062

Prekės kodas: 13985

187.99€

Enhanced Aesthetics and Superior Quality

Featuring a unique snake head shape, matte finish coating and large RGB lightbar, the Viper Xtreme 5 combines strong performance and a truly unique look gamers can't find anywhere else. Created from high-quality aluminum materials, our heatshield is designed to last and able to go the distance with extreme performance.

Higher Frequency Support

Through improvements to our internal clock generation and memory timing circuits, the Viper Xtreme 5 delivers up to a ridiculous 8000MHz, achieving and supporting the highest data transfer rates and frequencies of any Viper DRAM in our entire catalog.

PMIC- Lower Power Consumption

The Viper Xtreme 5 is designed to operate at higher speeds with lower voltages without generating as much heat. This lower power consumption is possible due to the integrated high-quality PMIC which creates more room for overclocking without exceeding safe voltages and temperature limits. (Overclocking requires more power, so a high-quality power supply with adequate wattage and stability can help ensure stable and reliable overclocking.)

Intel XMP 3.0 Ready

The Viper Xtreme 5 supports Intel XMP 3.0 Ready overclock profiles.

Trustworthy Components

With On-die ECC, the Viper Xtreme 5 can correct single-bit errors and detect multi-bit errors, ensuring that data integrity, data accuracy and system reliability are maintained in the event of hardware errors or other issues in high-performance environments.

Motherboard and Viper exclusive RGB App supported

The Viper Xtreme 5's RGB lighting system on the lightbar allows for endless stunning customization options to stand out among other RGB performance memory. With our exclusive Viper RGB Sync, you can easily pair your lighting effects with other devices for a fully cohesive and immersive system.

- Viper Xtreme 5: The flagship DDR5 memory with professional-grade performance up to 8000MHz
- High-quality IC: Selected and screened for enhanced overclocking capabilities
- 100% hand-tested: Fully tested and tuned profiles for maximum performance
- Heatshield design: Aluminum Viper-head style heatshield, better performance and aesthetic for your Xtreme build
- Unlocked PMIC: Unlocked power to enable full performance for XMP and beyond
- Support for Intel XMP 3.0 and RGB App

Summary: Patriot Memory Viper RGB Xtreme5. Component for: PC, Internal memory: 32 GB, Memory layout (modules x size): 2 x 16 GB, Internal memory type: DDR5, Memory clock speed: 7600 MHz, CAS latency: 36 | Vendor Homepage: <https://viper.patriotmemory.com/products/xtreme5-ddr5-performance-ram> | Backlight: Y | Backlight colour: Red/Green/Blue | Buffered memory type:
