The R-Go Viva laptop bag is an ergonomic leather bag with integrated laptop stand. The height-adjustable laptop stand easily raises your laptop screen to eye level. This makes it possible to work in a healthy, upright posture at any location. The bag features additional compartments for a separate keyboard and mouse. The R-Go Viva laptop bag is produced in collaboration with the Agua Viva foundation in Brazil. This foundation offers new opportunities to people who have run into problems (e.g. due to alcohol or drug abuse or psychological problems). We donate about 20% of the production costs per bag to the Agua Viva Foundation. For the production of our laptop bag, we chose leather with the highest certification from the international organisation LWG 'Leather Working Group'. The LWG encourages leather manufacturers to produce in a sustainable and environmentally friendly way.
