With the PowerUp series, Chieftec aims to bring the well-received technical quality and high performance of the PowerPlay series to the mainstream gamer's market. With modern full-bridge LLC and DC-to-DC technology, extremely low ripple values and tight voltage regulation can be achieved.

A high power-density design allows this series to deliver up to 850W of power in a compact form factor, measuring only 14 cm in total length, while achieving 80 PLUS® Gold certified efficiency. The compact size combined with the fully modular cable management, allows the PowerUp series to be used conveniently in smaller builds, where a short PSU is needed, while long, flat, black cables
