200 ARGB is for you. Not only does it keep your components pleasantly cool, but it also looks epic. But what else would you expect when a tempered glass window and ARGB fans are included, right?

Among other things, the PC case accommodates a full ATX-size motherboard and 3 2.5" drives (or 1 3.5" and 2 2.5" drives). Additionally, you'll be able to fit a liquid cooling system with a 360 mm radiator on the front panel and a 240 mm radiator on the top. There's also room for 7 fans – including 4 Stratus 120 PWM ARGB fans you get for a good start – with the PWM splitter you can control them from a single motherboard connector.

Cool, cooler, Ventum

Without beating around the bush – the Ventum 200 ARGB is as airy as an air-conditioned room in a five-star hotel. The only difference is that our PC case has beautifully illuminated fans on the walls front and back panels. And you can arrange the interior however you like.

The storm of the century is coming!

At first glance, the Ventum 200 ARGB doesn't take up much space. But the truth is, you can easily rock the storm of the century inside, as our PC case accommodates up to 7 fans.

Nothing to hide

It's showtime! The Ventum 200 ARGB is perfect for those who take pride in their hand-picked components and meticulous cable management. Sporting a sturdy tempered-glass window, it gives you a clear view of your prized build.

Small but spacious

It's like a well-designed purse – it might not look like much from the outside (measuring only 440×216×373 mm), but it holds a world (of components) inside.

Summary: ENDORFY Ventum 200 ARGB. Form factor: Full Tower, Type: PC, Product colour: Black. Front fans installed: 3x 120 mm, Front fans diameters supported: 120 mm, Rear fans installed: 1x 120 mm.
