to the tempered-glass window, you can always sneak a peek inside to admire your pro cable management.

At the same time, the Ventum 200 Air is slender — measuring only 373×440×216 mm — but roomy like a survivalist's backpack. It can fit a full-sized ATX motherboard and up to 3 2.5" disks (or 2× 2.5" and 1× 3.5", it's up to you). For cooling, you can either equip it with as many as 7 fans or install a liquid cooling system — on the top (240 mm) or the front (360 mm).

For good measure, we've already included 4 Stratus 120 PWM fans. Enjoy!

Ventum force 10

It's in the name! The Ventum 200 Air is, well, airy — the perforated metal front panel ensures proper airflow, even if you're grinding for hours on ultra-high settings. With up to 7 fans inside, it's guaranteed to get windy.

Stratus for a start

The Ventum 200 Air doesn't take up much space, but it has space — enough for as many as 7 120 mm fans. And for your convenience, it comes with 4 Stratus 120 PWM fans already pre-installed.

Nothing to hide

It's showtime! The Ventum 200 Air is perfect for those, who take pride in their hand-picked components and meticulous cable management. Sporting a sturdy tempered-glass window, it gives you a good view of your prized build.

Small but spacious

It's like a well-designed woman's purse — it might not look like much from the outside (measuring only 3440×216×373 mm), but it holds a world (of components) inside.

Summary: ENDORFY Ventum 200 Air. Form factor: Tower, Type: PC, Product colour: Black. Front fans installed: 3x 120 mm, Rear fans installed: 1x 120 mm, Front radiator sizes supported:
